

SOFT CLOSURE

At Skinworks, the health and safety of our students, clients, employees and their families are our first priority. We are monitoring the global Covid-19 outbreak very closely, following the guidance recommended by our government, health officials and local leadership.

Skinworks has decided to do a soft close on March 12th to tentatively March 31st 2020. This closure is due to the recent news regarding the coronavirus in Utah. We currently do not have any known infected students, clients or employees; this is a precautionary measure to help reduce the of those we care for. We will continuously update our students & clients as we discuss our options with our accreditation & the US Department of Education. This is a soft close, our Administration team and Faculty will still be available. We will also be teaching out students remotely. To reach administration please use the below contact information.

Natalie Parkin, School Director
801-530-0001 EXT 105 or 801-414-7551

For future notice, Skinworks follows Standard Precautions with all of our practices. We consistently teach our students and employees to use high sanitation guidelines, not just now but always. We treat all clients & students as if they are infected with every treatment. We continue to follow these guidelines and emphasize the importance of them. We ask and reiterate often that students use their allotted absences for sick time. We also ask that our Spa Clients reschedule their appointments when sick.

We want you to feel confident when visiting Skinworks. As a result, we have enhanced some of our cleaning procedures in the interest of our Customers' Students' and Employees' health and safety.

We want you to feel confident when visiting Skinworks. As a result, we have enhanced some of our procedures in the interest of our Customers', Students' and Employees' health and safety.

- Several times per day we will sanitize light switches, door handles, sinks, and common counters.
- Students who no longer have allotted absences will be asked to stay home if they are experiencing flu like symptoms and will be handled on a case by case basis. Exceptions will be made.
- As the outbreak continues, we will monitor our options including, altering schedules, teach via online, while also considering closing for an longer extended amount of time.

We deeply care about our students, our clients, and our community. Anything we can do to prevent the spread of this virus will be taken into action.

Sincerely,
Natalie Parkin
Skinworks School Director
