Natalie Parkin, Skinworks Owner (801) 414-7551

CONTRAINDICATIONS

- *FOR LASH LIFTS - If you wear eye contacts, do not wear them to the appointment or be prepared to remove them.*
- Contagious eye infection or eye diseases (conjunctivitis)
- Stye (an abscess filled with puss caused by staphylococcus bacteria)
- Claustrophobia
- Pregnant or breastfeeding
- Recent Lasik surgery or permanent Make-up (Must wait 6 weeks)
- Clients with scar tissue, cuts, abrasions, inflammation, swelling or Eczema/Psoriasis in the face or eye area.
- Please note that some personal circumstances and/or changing living conditions could have an effect on physical and/or allergic reactions. (For instance: diseases, pregnancy, intake of medications/hormones/supplements)
- Accutane use within the past year (Brow Laminations)
- Any medication in the past 10-14 days that causes photosensitivity (antibiotics, antidepressants)
- Retin-A, Tretinoin, Renova, Tazorac, EpiDuo, Differin (Must discontinue use 7-10 days prior to treatment.

PRECARE

- Please arrive to your appointment with no eye makeup on. It will take extra time to remove mascara or any buildup that will directly affect the result of your lift.
- Do not shave or exfoliate the day of the treatment.

AFTERCARE

- Avoid getting your lashes wet and avoid steam for 24 hours
- Avoid sleeping on your lashes for 24 hours
